A **Full-stack developer** with high problem-solving skills and develops complex projects specializing in the **MERN stack MongoDB, Express.js, React, Node.js**. I Have a strong front-end and back-end development background. I am a final-year engineering student passionate about creating dynamic and responsive web applications. My expertise includes developing scalable solutions, optimizing performance, and collaborating with cross-functional teams to deliver high-quality projects.

EDUCATION –

Bachelor of Technology In Electronics and Telecommunication Engineering
Jabalpur Engineering College

2021-2025

SKILLS

- **Programming Language** – JavaScript, C++.
- **Frontend development** – HTML, CSS, JavaScript and React.js.
- **Frameworks** – Bootstrap, Next.js, Angular.js, Redux.
- **Databases** – MongoDB and Firebase.
- **Backend** – Node.js, Express.js, React.js, Api Development.

PROJECTS:

Full-Stack Ecommerce App - [Github](#)

- Developed a Full-stack ECommerce application using the **MERN stack (MongoDB, Express.js, React, Node.js)** with features like user authentication, product management, and a secure payment gateway.
- Enhanced user experience with responsive design and optimized performance for seamless shopping.
- Proficient in **JavaScript, HTML, CSS, MongoDB, Express.js, React, Node.js, and RESTful APIs**.

CRUD API (Backend Project) - [Github](#)

- Developed a robust and scalable **CRUD API using Node.js and Express.js**, with **RESTful** endpoints for managing resources, user authentication, data validation, and error handling.
- Conducted thorough testing and debugging using Postman to validate API functionality and performance.
- Demonstrated expertise in backend development and API design, resulting in a reliable and high-performing backend solution.

Chat-App (React App) - [Github](#)

- Developed a real-time chat application using React, JavaScript, CSS, and HTML, with Firebase for backend services and data storage, including Firebase Authentication for user sign-in and Firebase Firestore for real-time messaging.
- Designed and implemented a responsive user interface with modern styling, leveraging React component-based architecture for efficient UI and state management.
- Showcased proficiency in front-end development, responsive design, and real-time data handling, resulting in an interactive and user-friendly chat application.

Certifications

- The Web Developer Bootcamp 2024 by Colt Steele - [Certificate](#)
- MP FITT IITD Artificial Intelligence Builder - [Certificate](#)
